Dear Emory,

We haven't moved. They've renumbered the rural routes.

Thanks for the followup on Whitewash IV and Oswald's Russian-language schooling.

My hunch is the the Marines faithfully represent their records, that if LHO did take training it was obfuscated or on his own, and that if you want to follow this further try the Army on its Monterrey records.

It would have been no trick for him to have done this on his own.

Or at Berlitz, etc.

I have nothing further on this and regard those other things I pursue as more important and more likely to be productive.

Good luck if you do keep after it.

And thanks,

Sincerely,

Harold Weisberg
